SKILLS

Languages: C, C++, Java, Python, HTML, CSS, JavaScript, React.js, Node.js
Tools/Platforms: Kali Linux, Ubuntu, MySQL, Amazon Web Services (AWS), Oracle
Soft Skills: Team Management, Time Management & Multi-tasking, Problem-Solving

INTERNSHIP

Decent Web Services LLP Jun' 23 – Jul' 23

- Worked on the School ERP development project, contributing to core modules under professional supervision.
- Gained practical experience in HTML and PHP, strengthening skills in front-end and backend web development.
- Demonstrated strong task ownership, effective time management, and the ability to understand and deliver project requirements.
- Maintained excellent professionalism, discipline, and a positive work attitude throughout the internship.

PROJECTS

Car Rental System — Full Stack Development | Link Apr' 25

- Developed a full-stack web application enabling users to browse, book, and manage car rentals with real-time availability. Built a responsive frontend interface using HTML, CSS, JavaScript.
- Implemented a secure backend with database integration to handle bookings, payments, authentication, and user profiles.
- Created an admin dashboard for managing cars, customers, pricing, rental history, and fleet status. Integrated search filters, booking validation, and automated billing to enhance usability and accuracy.
- Ensured data security and session-based login authentication for protected user access.

Student Report Card System — C++ | Link Jun' 25

- Built a C++ console-based system to generate, store, and manage student report cards efficiently.
- Utilized file handling to save, update, and retrieve student marks and grade records securely.
- Constructed automated grade calculation and performance evaluation for accuracy and consistency.
- Made a menu-driven interface to simplify navigation for teachers and administrators.

Smart Class Using IOT | Link May' 24

- Designed an IoT-enabled smart classroom automation system using ESP32, RFID, and sensors to manage lights, fans, and access control automatically.
- Applied RFID-attendance and authentication, eliminating manual record-keeping and improving accuracy.
- Integrated IR motion sensors for automatic control of electrical appliances based on classroom occupancy, reducing power consumption.
- Configured real-time monitoring and data visualization through Thing Speak for classroom status and device activity tracking.

CERTIFICATES

- NPTEL Cloud Computing : Certification Indian Institute of Technology Kharagpur Certificate Oct'25
- Build Generative AI Apps and Solutions with No-Code Tools | Certificate Sep'25
- ChatGPT-4 Prompt Engineering: ChatGPT Generative AI & LLM| Certificate Aug'25
- Computational Theory: Language Principle & Finite Automata Theory | Certificate Aug'25

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; *Aug' 24 –Present*

Lovely Professional University Phagwara, Punjab
Diploma; ***CGPA: 7.6*** *Aug' 21 – June'24*

St. John's Academy Patna, Bihar
Matriculation; ***Percentage: 89.3%*** *Apr' 20 – Jul' 21*
